G C D A

Em G
Wait in the dark
D Bm
With the memories that replay
Em G
my lonesome fears and my mind
D Bm
Is betrayed by time passing by and I just
Em G
Need you to wake up
D Bm
I'm gonna need you to save us
Em G A
And take me home...

Em G D A
Feel the madness taking over
Em G D A
While you lay in frozen sleep
Em G D A
And though my life's now fading
Em G A
You're still a promise I will keep

Em G
Wait in the dark
D A
Every feeling becomes so magnified
Em G D A
And my mind goes on and on
Em G
I'm trying to hold on
D A
But I keep losing control of
Em G A
All I know
